## **The Gray Ghost Inn Named Motorcycle Destination of the Year**

*Backroads Magazine* has named The Gray Ghost Inn as the #1 destination of the year for motorcycle enthusiasts. In the February issue, "The Best of 2007," *Backroads* cited warm hospitality as the main reason for the choice "One of the most important qualifications is how we are treated by the folks running the place" said Brian Rathjen, editor. Rathjen added, "in the case of the Gray Ghost, you cannot be treated better." After the 2007 Summer Squeeze Rally, the readers of *Backroads* reported, "All were impressed with the Gray Ghost and touched by the genuine hospitality that we found there."

"The Gray Ghost is the real deal and easily was our choice for the #1 spot on this year's *Best of Backroads*" Rathjen added.

*Backroads Magazine*, with distribution from North Carolina to Canada, caters to the serious motorcycle enthusiast with a focus on travel and adventure. *Backroads* will feature destination rides including descriptions of local roads, interesting attractions to visit and, of course, places to eat.

Located on scenic route 100 at the gateway to the Green Mountains, the Gray Ghost Inn is convenient to some of the greatest motorcycle riding in the northeast. The Gray Ghost Inn has a large level parking lot which will easily facilitate bringing a bike on a trailer. Full breakfast cooked to order using all local ingredients and served with a smile is always included in your stay. The Gray Ghost Inn hosts twenty-six rooms, a 900-gallon in-ground, outdoor, hot tub, in-ground pool, a well-used fire pit, and accommodations for pool playing, Foosball and general lounging. The Inn is within easy walking distance of several restaurants and lounges.
